# Flash Player Includes:

## *STANDARD ALBUM FORMAT*

**ADD – FREE:** $250.00 / album
**WITH ADD:**  $150.00 / album

- One album (no more than 10 songs to an album).
- Remote hosting of your material.
- Flash player – customized to the design of your album / logo.
- Code to place your customized flash player on your website, MySpace, etc...
- One link to vendor. (Separate banner is needed for MySpace – no extra charge. One size fits all.)

## *JUKEBOX FORMAT (one player)*

**ADD – FREE:** $75.00 / song

1. 1 to 4 songs: $75/song
2. 5 to 10 songs: $50/song
3. 11 and up: $25/song

- Limitless songs on player
- One art piece per song
- Remote hosting of your material.
- Code to place your customized flash player on your website, MySpace, etc...
- One link to vendor (Separate banner is needed for MySpace – no extra charge. One size fits all.)

# Why Have your own Flash Player?

- It beats having one with commercials.
- You will have the code, so 1 site or 1- million sites can display your flash player.
- Higher quality audio than MySpace flash player.
- You can display as many albums as you like on your page!
- Remote hosting through us is a great way to reach your buyers.
- You can have the player LOOK LIKE the actual album!

Legalities / Formalities:

You must own or have the rights to display/distribute both the artwork and music contained in the flash player.

Any "Changes" to an album relating to art, design, or selections once the initial player is created will be done within the discretion of JakeJam Productions' management on a case-by-case basis.
(i.e. – If your project wants to display one album of yours one day and change the songs / artwork to another album another day... we won't do that. You're abusing our service.)
